

KOOKABURRA

The kookaburra makes loud, long calls that sound like laughter to let all know the boundaries of its territory.

WHALE SHARK

The whale shark is the largest fish on the planet and can reach up to 46 feet in length and weigh up to 24,000 pounds!

SALTWATER CROCODILE

The saltwater crocodile is the largest reptile in the world in terms of mass and can reach up to 23 feet in length and weigh up to 2,200 pounds!

DRAW THE NUMBAT

Copy the picture using the grid lines as your guide. You might find it easier to copy one square at a time, Mate!

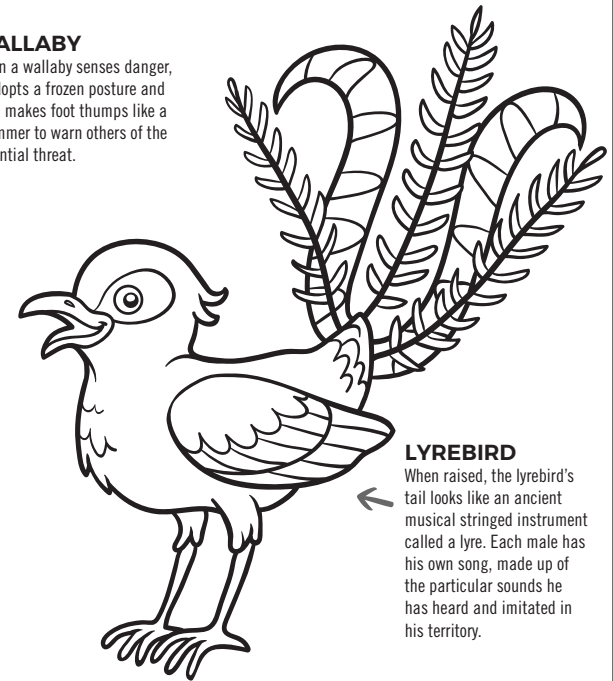

NUMBAT

Numbats are small marsupials that look like squirrels. Numbats are different than most marsupials since they eat termites instead of plants.

WALLABY

When a wallaby senses danger, it adopts a frozen posture and then makes foot thumps like a drummer to warn others of the potential threat.

LYREBIRD

When raised, the lyrebird's tail looks like an ancient musical stringed instrument called a lyre. Each male has his own song, made up of the particular sounds he has heard and imitated in his territory.

KYLIE'S KRAZY MAZE

Can you help Kylie the Koala find her way through the maze?

PLATYPUS

The platypus is an excellent swimmer, diving under water for around 30 seconds on average to look for food before coming up for air.
